foggy throated ginks and gooks who went to the Baltimore Conventi with flags flying and bands playing 'Take a Little Tip from Father." And 'Us a sorry lot they are. But don't think they are cured of the convention habit one bit. The average Tammanyite, who is a swell-chested somebody in his district, imagines that he will hobnob and drink pubbles with the makers of Presidents when he goes to a national convention. But size! When he gets there he is lost in a magistrom of other foolish mutts. THREE WEEKS AGONE TO-DAY there appeared on this page a little article on Bombardier Wells, the English heavyweight champion, in the course of which I said apropos of the fighting capacity of that young man:

Now here's where I become a prophet. I've never seen this aspiring young person in action, but to me he looks just too levely for the game of fisticates. Whenever I see him introduced by the talkative announcers I almost expectative announcers I almost expectation the first few seconds of fighting failed to see or failed to mention the with his 2281-4 pounds back of it tanded directly under Wells's heart in the first few seconds of fighting or the first few seconds of fighting failed to see or failed to mention the with his 2281-4 pounds betweet or the first few seconds of fighting failed to see or failed to mention the with his 2281-4 pounds betweet or the first few seconds of fighting failed to see or failed to mention the with his 2281-4 pounds betweet or the first few seconds of fighting failed to see or failed to mention the with his 2281-4 pounds betweet or first few seconds of fighting failed to see or failed to mention the with his 2281-4 pounds betweet

things that impressed them at the Baltimore Convention. Oddly enough those items were acquired outside the hall. Here's one: Herman Mets tout his friend Borough President McAneny out to a late session. When they got back to the hotel Metz steered McAneny into the room where Tom Byrnes, the Brooklyn leader, was asleep in one of the two heds that stoud side by side. The light was dim and McAneny didn't recognize his roommate. In the morning he did. Then he hunted up Metz and called him a dachshund, which is Dutch for a long-eared houn' dog. And why was McAneny angry? Well, if there are any two politicians on earth who hate each other thoroughly they are Byrnes and McAneny. That's all. It was a Brooklyn joke to put them in the same bedreom.

While the discussion about the platform was at its height Charley Who and Tom Wogan, another pair of Brooklyntes, were arguing about the planks. It was the woozy hour and the fixzes had been fast and strong.

"They ought to put in a plank about the Titanic disaster," said Wice. "Wotinell you dreaming about?" asked Wogan. "What's the Titanic got to

do with the Demogratic national platform?" "Well, it should be put there," said Wise. And they argued it out for three solid hours and then fell asleep with their

B OXING CLUB MANAGERS should be a little more careful in matching the contenders at their clubs. That bout between Mike Gibbons and Joe Stein at the St. Nicholas Club the other night draws forth this remark. The fans knew it was a one-sided affair, but Gibbons is such a clever man that anywhere he shows here he will attract a crowd who want to see him at work As expected, Stein was willing but clumsy. He couldn't hit Gibbons with a shovelful of shot. After the fifth round the bout descended to a plain case of plasticking. It should have been stopped, Mr. Referee Tone, when the decent-minded patrons called to end it. There is nothing sporty in seeing a good. game boy like Stein getting punishment when there never was a chance for him
